

KESWICK MOUNTAIN RESCUE TEAM

ANNUAL REPORT 1986

INCIDENT REPORT 1985

There were 62 calls last year to assist a total of 70 people from 10 to 76 years of age. All ages were equally susceptible. 6 calls involved fatalities.

574 calls were made on members who put in 1628 man hours. Call-outs lasted anything from 30 minutes to over 12 hours, day and night.

The largest cause of accidents was a slip, of which there were 20, mostly involving a fracture or sprain. The second main call on our services is for people lost or benighted due to bad weather or inadequate navigation.

Team Leader's Report

At the start of 1985 we decided to replace our Ford Transit. It had served us well but was 17 years old and had become increasingly unreliable. In keeping with our policy of low publicity we decided to try and raise the money locally.

In six months we had enough funds to order the vehicle and now twelve months after launching the appeal we have our four wheel drive Ford Transit, equipped as an Ambulance and ready for the road.

To achieve our target in so short a time is a great tribute to the generosity of the people and the organisations of Keswick. I would like to take this opportunity on behalf of the team to express our appreciation and thanks to everybody who donated.

It has been another busy year with over 60 callouts. I am sure this is a trend that is going to continue, inevitably as our fells get more and more visitors. But I am sure the team will continue, to cope with anything that is asked of them in their usual prompt and efficient manner.

Mike Nixon
